How I Can Enable Person to Update or Change Profile Photo Via Set Preferences

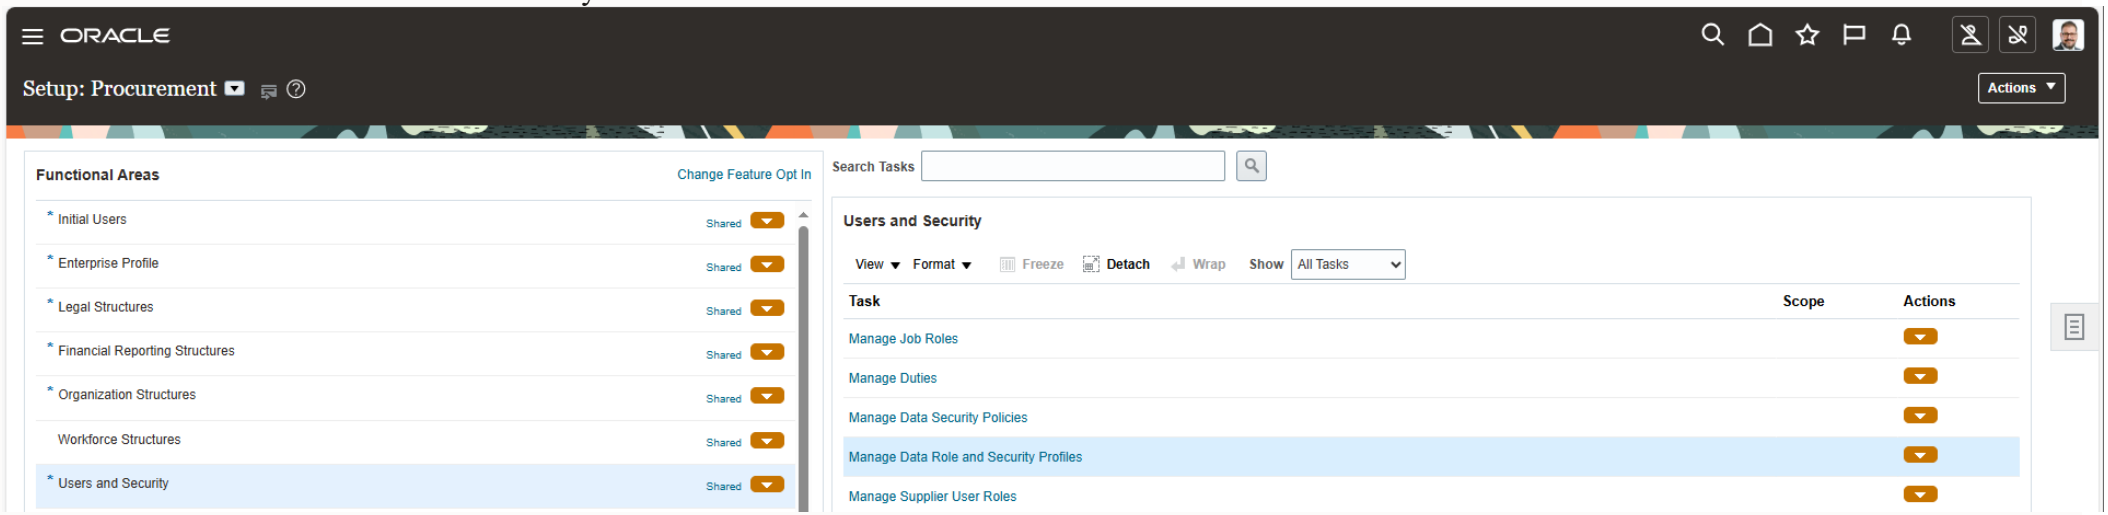

When user navigates to Settings and Action Menu > Set Preferences > My photo, they are unable to upload the photo.

Cause: Missing data access to own record as employee role was missing the person data security.

Solution:

Modify the Employee role present with user by adding data security via below path.

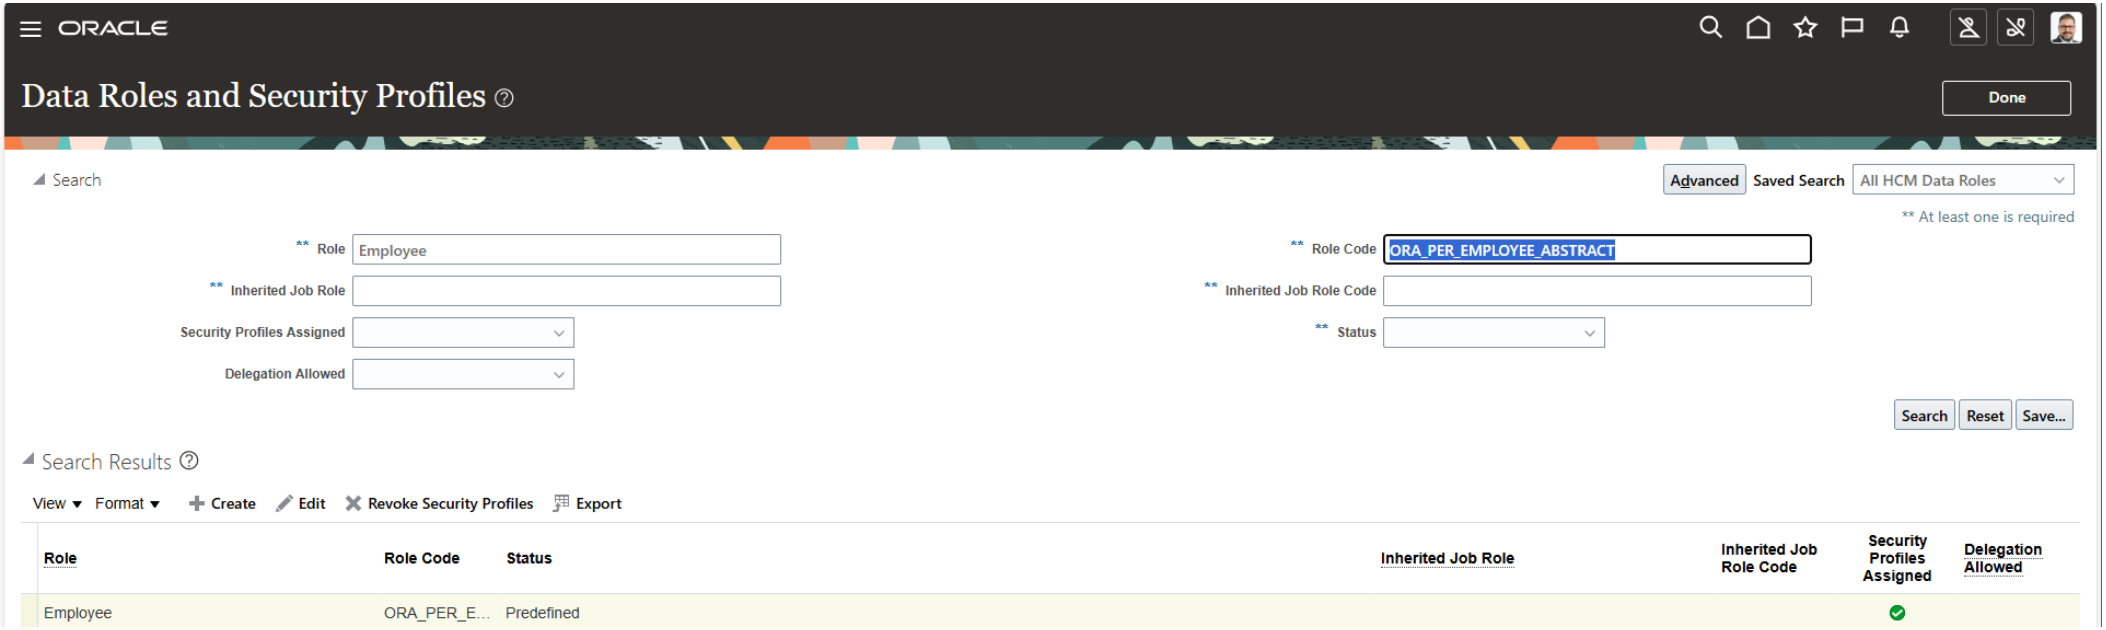

Workforce Structure > Data Role and Security Profile

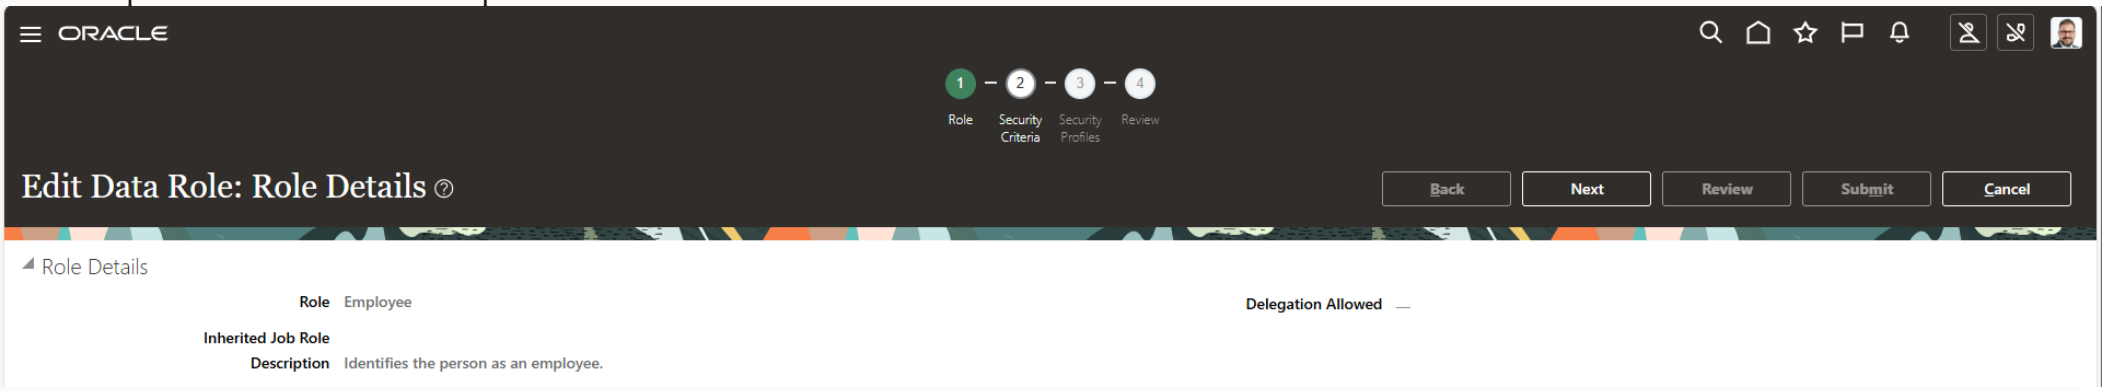

Search Role = Employee

Code = ORA_PER_EMPLOYEE_ABSTRACT

Author: Ahmed Elshayeb

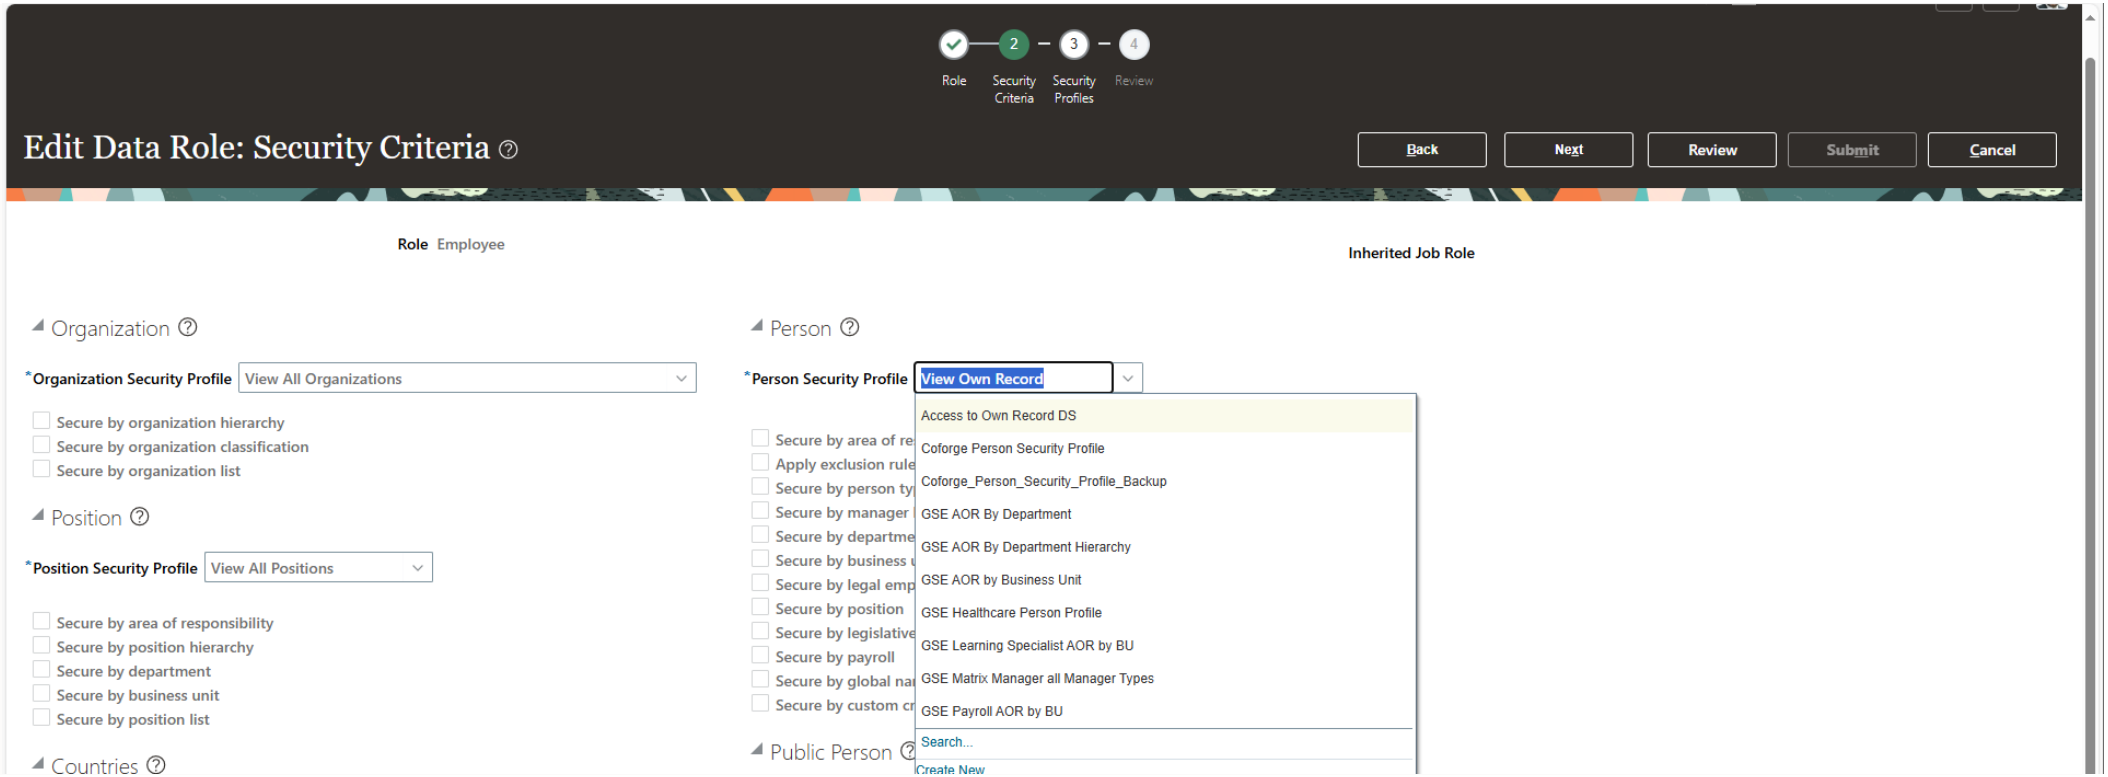

Edit and Add Person Security Profile as "View Own Record".
For other profiles add " View All People " access.
