STEP 5: Update Status>> After Editing Every Charge Line from Step 4> Save>Actions>Update Status>Open>OK

The screenshot displays the Oracle Fusion Landed Cost Management interface. The top navigation bar shows the Oracle logo and search functionality. The main header indicates the current operation is 'Trade Operation: PO-26-07-10079'. The 'Edit Trade Operation' form includes fields for Procurement BU, Group Business Unit, Name, Number, Description, Template, Document Currency, Currency Conversion Rate Type, Route, Creation Date, and Last Update Date. The 'Landed Cost Charges' table lists three charge lines: 1 (Customs Fees), 2 (Bank Charges), and 3 (Freight Expenses). The 'Update Status' dialog box is open, showing the 'Status' dropdown set to 'Open' and the 'Reason' field. The 'OK' button is highlighted.

Edit Trade Operation: PO-26-07-10079

Procurement BU: [Group Business Unit] | Name: PO-26-07-10079 | Number: 4 | Description: PO-26-07-10079 | Template: Templet From Egypt

STEP 6: Manage Landed Cost Processes>> Open Task List>Manage Landed Cost Processes>Search>Schedule Process >Submit

The screenshot displays the Oracle Fusion 'Manage Landed Cost Processes' page. The top navigation bar includes the Oracle logo and a search bar. The breadcrumb trail shows: Overview > Manage Trade Operations > Create Trade Operation from Template > Trade Operation: PO-26-07-10079 > Manage Landed Cost Processes.

The main content area is titled 'Manage Landed Cost Processes'. It features a search bar with the text 'Run Control' entered. Below the search bar, there are buttons for 'Detach', 'Schedule Process', and a refresh icon. The search results are displayed in a table with the following columns: Run Control, Description, Commit Limit, Last Run Date, and Last Process ID. The table shows one result: 'Run Control'.

Below the table, there are sections for 'Configure Processes' and 'Define Parameters', both indicating 'No data to display'.

The right sidebar contains a list of navigation links organized into categories:

- Accrual Processing
 - Create Receipt Accounting Distributions
 - Create Uninvoiced Receipt Accruals
 - Record In-transit Inventory and Expense for External Purchases
 - Review Receipt Accounting Distributions
- Accrual Clearing

STEP 8: Receiving>> Home Page>Supply Chain Execution>Inventory Management>Open Task List>Receipt>Receive Expected Shipments>Receive>Show Receipt Quantity>Create Receipt>Submit>OK

Oracle Fusion - Landed Cost Management - Mohamed Medhat

The first screenshot shows the 'Inventory Management' dashboard. The 'Show Tasks' dropdown menu is open, highlighting the 'Receipts' section. The 'Expected Shipments' task is selected, showing a list of tasks including 'Receive Expected Shipments', 'Manage Inbound Shipments', 'Create ASN', 'Create ASBN', and 'Upload ASN or ASBN'. The 'On-Hand' quantity is 94.5.

The second screenshot shows the 'Receive Expected Shipments' page. The 'Advanced Search' section is active, and the 'View' dropdown is set to 'Receive'. The search results table shows two items for testing, both with a quantity of 50.

STEP 12: Run Manage Landed Cost Processes>>Home Page>Supply Chain Execution>Receipt Accounting>Open Task List>Manage Landed Cost Processes>Search>Click on it>Schedule Process>Submit>Save and Close

The screenshot displays the Oracle Fusion Landed Cost Management interface. At the top, the navigation bar includes 'Contract Management', 'Supply Chain Execution' (highlighted with a red box), 'Product Management', 'Cash Management', and 'Fixed Assets'. Below this, the 'QUICK ACTIONS' section lists various tasks, and the 'APPS' section shows icons for 'Work Definition', 'Quality Management', 'Inventory Management (Classic)', 'Cost Accounting', 'Receipt Accounting' (highlighted with a red box), and 'Supply Orchestration'. The main content area is titled 'Receipt Accounting' and shows a 'Business Unit All' filter. It contains several summary cards: 'Cost of Receipts Last 7 Days' (a donut chart showing 6.4%), 'Exceptions Receipt Accounting' (0), 'Unmatched Accrual Balances' (No data available), 'Open Charge' (No data available), 'Accrual Write Off Last 7 Days' (No data available), 'Charge Lines Status' (No data available), and 'Trade Operations' (1 Draft, 2 Open, 0 On hold). On the right side, a task list is visible, with 'Manage Landed Cost Processes' highlighted by a red box. The task list includes options like 'Create Receipt Accounting Distributions', 'Create Uninvoiced Receipt Accruals', 'Record In-transit Inventory and Expense for External Purchases', 'Review Receipt Accounting Distributions', 'Clear Receipt Accrual Balances', 'Manage Accrual Clearing Rules', 'Adjust Receipt Accrual Balances', 'Match Receipt Accruals', 'Audit Receipt Accrual Clearing Balances', 'Create Accounting', 'Review Journal Entries', 'Manage Trade Operations', 'Review Purchase Orders for Landed Cost', 'Manage Charge Invoice Associations', 'Manage Landed Cost Processes', 'Review Landed Cost Processes', 'Manage Trade Operation Templates', 'Reconcile Landed Cost Charges', 'View Item Landed Cost', 'Analyze Landed Cost Charges', 'Analyze Landed Cost Variances', and 'Capture Trade Operation Charges in Spreadsheet'.

STEP 13: Create Receipt Accounting Distribution>>Receipt Accounting>Open Task List>Create Receipt Accounting Distribution>Bill To BU>Submit

The screenshot displays the Oracle Fusion Landed Cost Management interface. The main area shows the 'Receipt Accounting' overview for 'Business Unit: All'. It includes several summary cards: 'Cost of Receipts' (Last 7 Days) with a donut chart showing 6,000,000; 'Exceptions' (Receipt Accounting) with a value of 0; 'Unmatched Accrual Balances' with 'No data available'; 'Accrual Write Off' (Last 7 Days) with 'No data available'; 'Charge Lines Status' with 'No data available'; and 'Trade Operations' with 1 Draft, 2 Open, and 0 On hold. A sidebar menu on the right lists various tasks, with 'Create Receipt Accounting Distributions' highlighted under the 'Accrual Processing' section. A red box highlights the 'Open Task List' icon in the sidebar.

Oracle Fusion Landed Cost Management interface showing the Receipt Accounting Overview page. The page displays various summary cards and a sidebar menu.

Summary Cards:

- Cost of Receipts (Last 7 Days):** 6,000,000. Legend: Material (Blue), Landed cost (Green), Tax (Yellow).
- Exceptions (Receipt Accounting):** 0.
- Unmatched Accrual Balances:** No data available.
- Accrual Write Off (Last 7 Days):** No data available.
- Charge Lines Status:** No data available.
- Trade Operations:** 1 Draft, 2 Open, 0 On hold.

Sidebar Menu:

- Accrual Processing**
 - Create Receipt Accounting Distributions
 - Create Unmatched Receipt Accruals
 - Record In-transit Inventory and Expense for External Purchases
 - Review Receipt Accounting Distributions

STEP 14: Create Cost Accounting Distribution>>Home Page>Supply Chain Execution>Cost Accounting>Open Task List>Create Cost Accounting Distribution>Click on Run Control>Schedule Process>Submit

The screenshot displays the Oracle Fusion Supply Chain Execution interface. The top navigation bar includes the Oracle logo, a search bar, and navigation icons. The main header shows the user's name, 'Good afternoon, mahmoud youssri', and a breadcrumb trail: Contract Management > Supply Chain Execution > Product Management > Cash Management > Fixed Assets. The 'Supply Chain Execution' tab is active. Below the header, there are two sections: 'QUICK ACTIONS' and 'APPS'. The 'QUICK ACTIONS' section lists several tasks, including 'Manufacturing Work Definitions', 'Download Work Definitions to Spreadsheet', 'Work Definition Names', 'Manufacturing Resources', and 'Workstations'. The 'APPS' section displays a grid of application tiles: 'Work Definition', 'Quality Management', 'Inventory Management (Classic)', 'Cost Accounting' (highlighted with a red box), 'Receipt Accounting', and 'Supply Orchestration'. A tooltip for 'Cost Accounting' is visible. Below the 'APPS' section, there is a 'Show More' link. The bottom section of the interface shows the 'Cost Accounting' task list. The left-hand menu includes 'Overview' and 'Cost Accounting'. The 'Cost Accounting' task list is displayed in a grid, with several tiles showing 'No data available' and one tile showing 'Work Order Costs' with a value of 0.00. The right-hand menu is open, showing a list of tasks under 'Cost and Profit Planning', 'Item Costs', 'Cost Processing', and 'Accounting'. The 'Cost Processing' section is highlighted, and 'Create Cost Accounting Distributions' is selected.

Oracle Fusion Supply Chain Execution interface showing the 'Cost Accounting' app highlighted in the 'APPS' section. The interface also displays a list of tasks under 'Cost Accounting', including 'Create Cost Accounting Distributions' (highlighted in the right-hand menu).

STEP 21: Create Cost Accounting Distribution>>Home Page>Supply Chain Execution>Cost Accounting>Open Task List>Create Cost Accounting Distribution>Search>Run Control>Schedule Process>Submit

The screenshot displays the Oracle Fusion Supply Chain Execution interface. The top navigation bar includes tabs for Contract Management, Supply Chain Execution (selected), Product Management, Cash Management, and Fixed Assets. The main dashboard area is divided into 'QUICK ACTIONS' on the left and 'APPS' in the center. The 'QUICK ACTIONS' list includes Manufacturing Work Definitions, Download Work Definitions to Spreadsheet, Work Definition Names, Manufacturing Resources, and Workstations. The 'APPS' grid features icons for Work Definition, Quality Management, Inventory Management (Classic), Cost Accounting (highlighted with a red box), Receipt Accounting, and Supply Orchestration. A 'Personalize Springboard' button is located at the bottom right of the apps grid. Below the dashboard, the 'Overview' section for 'Cost Accounting' shows a grid of metrics. The first four metrics (Asset Inventory Valuation, Consigned Inventory Valuation, Gross Margin, and Purchase Price Variance) all show 'No data available'. The fifth metric, Work in Process Balances, also shows 'No data available'. The sixth metric, Work Order Costs, displays '0.00' for Scrap Amount, '0%' for Scrap Percentage, and '0.00' for Total Variance. The seventh metric, Last Cost Rollup, shows '0' Rolled Up and '0' Not Rolled Up. The eighth metric, Transaction Status, shows 'No data available'. A right-hand sidebar lists navigation options, with 'Create Cost Accounting Distributions' highlighted under the 'Cost Processing' section.

STEP 23: Create Receipt Accounting Distribution>> Home Page Supply Chain Execution>Receipt Accounting>Create Receipt Accounting Distribution>Add Bill To BU>Submit

The screenshot displays the Oracle Fusion Landed Cost Management interface. At the top, a navigation bar includes 'Contract Management', 'Supply Chain Execution', 'Product Management', 'Cash Management', and 'Fixed Assets'. Below this, a 'QUICK ACTIONS' section lists various tasks, and an 'APPS' section contains icons for 'Work Definition', 'Quality Management', 'Inventory Management (Classic)', 'Cost Accounting', 'Receipt Accounting' (highlighted with a red box), and 'Supply Orchestration'. The main content area is titled 'Receipt Accounting' and shows a 'Business Unit: All' summary with several charts: 'Cost of Receipts' (Last 7 Days), 'Exceptions' (Receipt Accounting), 'Unmatched Accrual Balances', 'Accrual Write Off' (Last 7 Days), 'Charge Lines Status', and 'Trade Operations'. A right-hand sidebar lists various tasks under categories like 'Accrual Processing', 'Accrual Clearing', 'Accrual Reconciliation', 'Accounting', and 'Landed Costs'. The 'Create Receipt Accounting Distributions' task is highlighted with a red box. Below the summary, the 'Create Receipt Accounting Distributions' process is shown in progress. It includes a 'Process Options' section with 'Advanced' and 'Submit' (highlighted with a red box) buttons. The 'Basic Options' section contains parameters: 'Bill to Business Unit' (set to 'Group Business Unit' and highlighted with a red box), 'Commit Limit' (100000), and 'Number of Worker Processes' (10). A 'Submission Notes' field is also present.

This process will be queued up for submission at position 1

Process Options Advanced Submit Cancel

Name Create Accounting

Description Creates subledger journal entries.

Schedule As soon as possible

Submission Notes ☐ Notify me when this process ends

Basic Options

Parameters

* Subledger Application	Cost Management
* Ledger	Primary LYD Ledger
Process Category	
* End Date	8/11/26
* Accounting Mode	Final
* Process Events	All
* Report Style	Detail
* Transfer to General Ledger	Yes
* Post in General Ledger	Yes
Journal Batch	
* Include User Transaction Identifiers	Yes

STEP 25: Status=Close>> Home Page>Supply Chain Execution>Receipt Accounting>Open Task List>Manage Trade Operations>Search> Update Status>Closed>Save and Close

The screenshot displays the Oracle Fusion Supply Chain Execution interface. At the top, navigation tabs include Contract Management, Supply Chain Execution (selected), Product Management, Cash Management, and Fixed Assets. Below these, a 'QUICK ACTIONS' section lists tasks like 'Manufacturing Work Definitions' and 'Download Work Definitions to Spreadsheet'. A central 'APPS' grid contains icons for 'Work Definition', 'Quality Management', 'Inventory Management (Classic)', 'Cost Accounting', 'Receipt Accounting' (highlighted with a red box), and 'Supply Orchestration'. Below the apps grid is a 'Show More' link.

The main content area shows the 'Receipt Accounting' overview. It includes a 'Business Unit' filter set to 'All'. Key metrics are displayed in cards: 'Cost of Receipts' (Last 7 Days) with a donut chart showing 3.1%, 'Exceptions' (Receipt Accounting) with a value of 0, 'Unmatched Accrual Balances' (No data available), 'Accrual Write Off' (Last 7 Days) (No data available), 'Charge Lines Status' (No data available), and 'Trade Operations' (1 Draft, 2 Open, 0 On hold). A sidebar menu on the right lists various tasks under categories like 'Accrual Processing', 'Accrual Clearing', 'Accrual Reconciliation', 'Accounting', and 'Landed Costs'. The 'Manage Trade Operations' item under 'Landed Costs' is highlighted with a red box.
