

>Oracle Fusion SCM – Enterprise Structure (Practice Project)**>Prepared by : Gadena Chinna Narasimhulu****>Instance : Oracle Fusion Cloud – Vision instance****>Date : 27/08/2025**

In this practice project , I configured the end-to-end Enterprise Structure in Oracle Fusion SCM Cloud .The configuration covers Enterprise , legal Entity, Business Unit, Item Master Organization, Inventory Organization, and User role assignments. This setup forms the backbone of Oracle Fusion ERP implements

Step 1: Create User& Assign Roles**Navigation :**

Home ---> Tools --> security console-- >User account-- > Add user

Action:

. Enter user details(username , password , and email)

.Example:

>Username: butter.thief

>Password: practice.scm

>Email: youngtiger2424@gmail.com

.Assign Roles:

>Employee

>IT Security Manager

>Application Implementation Consultant

.Assign Data Access:

>Navigation:Global Search -> Manage Data Access for Users

>Provide access for the above roles in the relevant Business Units and Inventory Orgs.

Step 2 : Create Legal Entity

Navigation :Setup&Maintaince---Financials—Manage Legal Entities.

Created Legal Entity : Oppo Indian Legal Entity.

Purpose : Represents statutory reporting entity in india and link with Bus.

Oracle Create Legal Entity form. Fields include: Country (India), Name (OPPO INDIAN LEGAL ENTITY), Legal Entity Identifier (OPPO_INDIA_LE), Start Date, End Date, Identifying Jurisdiction (India Income Tax), Legal Address (18/11,BANGALORE-560040,Karnataka), Permanent Account Number (DIPPN0055A), TAN Number (B767G0FE4). Buttons: Save, Save and Close, Cancel.

Step 3 : Create Locations for (BU & Inv):

Global search – Manage Locations

Location name--

OPPO BU BANG LOCATION

OPPO BU HYD LOC

OPPO BANG INVNTY LOC

OPPO HYD INVNTY LOC

Oracle Create Location form. Fields include: Effective Start Date (1/1/51), Location Set (Common Set), Action Reason, Name (OPPO BU BANG LOCATION), Code (OPPO_BU_BANG_LOCATION), Status (Active), Inventory Organization, Description, Attachments, Location Latitude, Location Longitude, Context Value, Country (India), Address Line 1 (BANGALORE), Address Line 2 (ANJANAPURA), Address Line 3, City or Town (KONUGUNTA CROSS), Pin Code (560008), State (Karnataka), Time Zone Code, Official Language, Email, Geographic Hierarchy, Main Phone, Fax, Other Phone, Office Site (Yes/No), Designated Receiver. Buttons: Back, Review, Save, Submit, Cancel.

Result : Location created successfully .These is assigned later to BANG Business unit.

Oracle Create Location form. Fields include: Effective Start Date (1/1/51), Location Set (Common Set), Action Reason, Name (OPPO INVNTY BANG LOC), Code (OPPO_INVNTY_BANG_LOC), Status (Active), Inventory Organization, Description, Attachments, Location Latitude, Location Longitude, Context Value, Country (India), Address Line 1 (BANGALORE), Address Line 2 (MARTHALLI), Address Line 3, City or Town (BTM LAYOUT), Pin Code, State, Time Zone Code, Official Language, Email, Geographic Hierarchy, Main Phone, Fax, Other Phone, Office Site (Yes/No), Designated Receiver. Buttons: Back, Review, Save, Submit, Cancel.

Result : Location created successfully .These is assigned later to Bangalore inventory Organization.

The screenshot shows the Oracle Manage Inventory Organizations interface. At the top, there's a navigation bar with the Oracle logo and search, home, and notification icons. Below the header, the title "Manage Inventory Organizations" is displayed. A "Done" button is in the top right. The interface includes a "Search" section with a "Search" button and a "Manage Organization Parameters" button. Below this, a table lists the search results. The table has two columns: "Organization" and "Organization Name". One row is visible with the organization ID "8897" and the name "OPPO BANG INNTARY ORG". Below the table, there are icons for actions like "View", "Format", "Freeze", "Detach", and "Wrap".

Summary of Setup:

Enterprise: *OPPO Mobiles Pvt Ltd*

Legal Entity: *OPPO India Legal Entity*

Business Units: *Bangalore BU, Hyderabad BU*

Item Master Org: *OPPO* Item Master

Inventory Orgs: Bangalore Inv Org (8897), Hyderabad Inv Org (6305)
Roles Assigned: Inventory Manager, Product Manager, Warehouse Operator, Receiving Agent, Product Data Steward

Key Learnings:

Understood how Enterprise → Legal Entity → BU → Inventory Org hierarchy works.

Learned to assign user roles & data access properly.

Gained confidence in Oracle Fusion SCM functional basics.

Conclusion

This practice project helped me build a strong foundation in Oracle Fusion SCM and gave me hands-on exposure to Enterprise Structure setup.
